**RE: Letter of Recommendation
For Boyd Ramsey**

To Whom It May Concern:

This letter is written to serve as recommendation of the character and work ethic of Mr. Boyd Ramsey.

I have had the pleasure of working with Mr. Ramsey over the past (20) twenty years while Mr. Ramsey was employed by GSE Lining Technology, a critical supplier of Geosynthetic Products for my company COMANCO Environmental Corporation.

During a twenty plus year relationship with any supplier/manufacture you will encounter many issues not the least management changes, ownership changes, vision changes. But the one constant I could count on was Boyd Ramsey. Some of his best attributes of Mr. Ramsey was his honesty, helpfulness, knowledgeable, practical and responsible to his customers, the design intent and integrity.

In closing, I would recommend Mr. Ramsey for anything he sets his mind to. You will not be disappointed. He will under promise and over deliver.

Sincerely,

COMANCO Environmental Corporation
